**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments, filed 08 November 2004, with respect to the rejection of claims 1-20 under 35 U.S.C. 103(a) have been fully considered and are persuasive for at least the reasons given below. The rejection of claims 1-20 has been withdrawn.

***Allowable Subject Matter***

2. Claims 1, 2, 6-13, and 16-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: the amendments to independent claims 1 and 11 have sufficiently distinguished the present invention over the prior art. By more clearly reciting the steps of separately condensing and subcooling the working fluid in both the claims, and further requiring the refrigeration load to be immersed in liquid working fluid in claim 11, Applicant has persuasively argued that the prior art does not disclose alone or in an obvious combination all the limitations recited by these claims. Therefore these claims and the claims depending from them are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
